

Rodale Institute’s **Agriculture Supported Communities (ASC) Program** is a farm share program that offers a weekly selection of seasonal fresh, organic, locally-grown produce delivered to your community. Through farm share programs, you are a stakeholder in your local farm and a supporter of your local economy. By participating in the ASC program your dollar contributes to the important work that we have been doing at Rodale Institute for over 70 years, including researching the benefits of organic agriculture, training new organic farmers, and increasing availability and accessibility of organic produce in low-income communities.

In addition to the ASC organic vegetable share, Rodale Institute offers the option to participate in a meat share. Members can participate in either the meat share only or combine with a vegetable share. Meat share pick-ups will be bi-weekly starting the first week of June in coordination with ASC vegetable shares at Rodale Institute, Rodale General Store, and Sacred Heart Hospital only. There are no substitutions or revisions in the meat shares. A la carte meat purchases are also available - see cuts and prices at [rodaleinstitute.org/visit/store/rodaleinstitute pork](http://rodaleinstitute.org/visit/store/rodaleinstitute pork).

Members can choose to pay on a week-to-week basis or for the whole season up front. The funds from these shares support the initial early season operating costs necessary to run a vegetable farm such as seeds, equipment, and greenhouse management.

ASC runs from approximately the first week of June through mid-November (exact dates may vary due to weather patterns.) All members agree to pick up their shares weekly throughout the entire season at one of the community locations listed in this form.

I am committing to support Rodale Institute's ASC through the 2017 growing season, and share in the risks and rewards of this farm. I understand that the farmers at Rodale Institute grow all of the produce provided in my share with chemical-free organic practices and my farmers will provide the most balanced and bountiful harvest possible. I realize, too, that farming varies from season to season and despite specific projections, farming is susceptible to weather, insects, disease and other acts of nature. **I understand that I am committing to pick up my share on a weekly basis for the entire season at the location I have chosen, during normal pick-up hours. If I cannot pick up my share or have it picked up by a family member or friend, I will notify my farmer. I understand that if I am on a weekly payment plan, I will still be charged for the weekly delivery of produce even if I do not pick it up.**
